PROFESSIONAL EXPERIENCE

Senior Product Manager – Financial Products

Lojas Renner S.A. – Realize, Remote | Feb 2024 to Aug 2026

Core Responsibilities:

- Managed product updates, improvements, and new features for 5 core financial products (Private Label Card, Credit Cards, Loans, Insurance, and Open Finance), matching business goals with tech work.
- Participated in a key project focused on changing card processing systems and building a new credit card product.
- Led Product Discovery and delivery using Agile methods; defined user stories, acceptance criteria, backlog refinement, testing, and release plans to launch features faster.
- Acted as the main point of contact between Business, Engineering, Operations, Fraud, Compliance, CRM, Marketing, IT vendors, and leadership to connect business goals with technical delivery.
- Tracked and improved key product metrics (sales volume, delivery time, financial results, and churn) to drive continuous product growth.
- Managed operational risks and resolved critical system issues during major sales campaigns, keeping payment and credit systems stable.

Product Manager – Product Operations & Card Statements

Lojas Renner S.A. – Realize, Remote | Jul 2021 to Feb 2024

Core Responsibilities:

- Executed Go-To-Market (GTM) strategy, ensuring operational readiness for 10+ financial product launches from initial design to nationwide launch.
- Led the Instant Card project, enabling customers to get their card approved, unlocked, and ready for immediate use during their first visit to the store.
- Led the 100% Digital Statements project, moving 20% of physical paper statements to digital channels and saving about \$95K USD per month in operational costs.

- Developed and implemented the Sustainable Card project, starting at 20% of total card issuance and scaling it to 100% by 2026 to support company sustainability goals.
- Coordinated testing (UAT), release plans, and launch steps with key external vendors.

Product Owner – Financial Products Operations

Lojas Renner S.A. – Realize, Porto Alegre/RS - Brazil | Aug 2018 to Jul 2021

Core Responsibilities:

- Managed relationships and service agreements (SLAs) with 5 major national vendors for credit card processing, card production, and delivery.
- Led process and logistics optimization projects, creating savings of about \$1M USD per month across all initiatives.
- Monitored billing cycles, card issuance, and returned-card operational KPIs to ensure high quality and customer satisfaction.

IT Business Analyst

Bradesco Bank – Curitiba/PR and São Paulo/SP - Brazil | May 2015 to Aug 2018

Core Responsibilities:

- Connected technical development teams with leadership to align priorities, report status, and plan technology updates.
- Managed IT vendor governance and analyzed operational data for backup and storage systems to keep services available.

Operations Analyst / Operations Intern

HSBC Bank – Curitiba/PR - Brazil | Sep 2013 to May 2015

Core Responsibilities:

- Managed credit card operations, bank slip (boleto) processing, customer communications, and billing.
- Worked daily in an international environment with teams across 6 countries (USA, UK, Mexico, Chile, Argentina, and India), creating and leading a monthly best-practices group.
- Participated in the operational transition and consolidation of HSBC into Banco Bradesco, helping transfer processes and integrate vendors.
